

2018 Class Schedule

Proof of Workers Compensation Insurance must be sent in with the registration form.
Waivers for Workers Compensation Insurance will NOT be accepted.

<i>Course Title</i>	<i>Course Description</i>	<i>Day & Length</i>	<i>Prerequisites and/or Required Equipment</i>
Firefighter I Essentials of Firefighting	The Essentials class will be broken into four 4-hour blocks. Students will be divided into four groups and rotate through the four blocks of training.	Saturday and Sunday 16 Hours	<u>Full Protective Clothing; to include Turnout Coat, Pants, Hood, Helmet, Boots, Gloves, Eye protection and SCBA are required for this class.</u>
Forcible Entry	Identifies forcible entry tools and explains how to use and maintain them. Shows how to do "through-the-lock" entry on different types of doors. Demonstrates various methods of forced entry through three types of doors and three types of windows.	4 Hours	<u>Required Equipment:</u> Full Protective Clothing; to include Turnout Coat, Pants, Hood, Helmet, Boots, Gloves, Eye protection and certified SCBA.
Ventilation	Students will learn the basics of ventilation operations, the advantages of proper ventilation, and considerations for deciding if and where to ventilate. Also vertical and horizontal ventilation, natural and forced ventilation procedures.	4 Hours	<u>Required Equipment:</u> Full Protective Clothing; to include Turnout Coat, Pants, Hood, Helmet, Boots, Gloves, Eye protection and certified SCBA.
Ground Ladders	Students will learn basic parts and terms that are common to most ladders. The various types of ladders in use by the fire service. The proper care, carrying, deployment, and use of fire service ground ladders.	4 Hours	<u>Required Equipment:</u> Full Protective Clothing; to include Turnout Coat, Pants, Hood, Helmet, Boots, Gloves, Eye protection and certified SCBA.
SCBA/PPE SCBA Confidence Maze	Presents the identification and function of protective clothing used in fire ground operations. Demonstrates correct methods for using and caring for protective clothing as well as the limits of protection. Presents the components, functions, and safety features of various types of SCBA. Demonstrates correct procedures for donning and doffing SCBA and shows how to change cylinders at an emergency scene.	4 Hours	<u>Required Equipment:</u> Full Protective Clothing; to include Turnout Coat, Pants, Hood, Helmet, Boots, Gloves, Eye protection and certified SCBA.
Specialty Training Packages	Students will be divided into groups and rotate through the blocks of training. (Package 1 Only)	Saturday And Sunday 16 Hours	These classes are paired for optimal training. Pairs are color coded for each block of training.

Specialty Package 1	Students will be divided into two groups and rotate through the two blocks of training		
Flashover Safety and Survival Training	Utilizing the State's new flashover trailer, this is a lifesaving program for recognition and survival of the phenomena of flashover. Students will learn to better understand the phenomena of flashover, to recognize the signs of flashover, techniques to possibly give them time to escape a flashover and to save firefighters from injury and death from flashover.	8 Hours	Prerequisite: Fire Behavior <u>To participate in this training, students must meet facial hair requirements as per NFPA.</u> Required Equipment: Full Protective Clothing; to include Turnout Coat, Pants, Hood, Helmet, Boots, Gloves, Eye protection and certified SCBA.
Art of Reading Smoke	Often, smoke exuding from a building is the only clue available to predict fire behavior and the likelihood of a flashover or rapid fire spread. First arriving officers, Incident Commanders, and Safety Officers MUST know how to rapidly read smoke – this class explains the reading-smoke process and gives participants practice using actual fire ground video.	8 Hours	Prerequisite: None
Specialty Package 2		Saturday plus Sunday	
NFIRS Reporting	This 6 hour (Sun) segment consists of learning the National Fire Institute Reporting System. It is sponsored and taught by the Idaho Fire Marshal's office. This will include an investigation exercise outside.	Sunday	Prerequisite: None Dress warm for the outside portion of this class.
Idaho EMS Reporting and CEU Tracking	This 6 hour (Sat) segment consists of learning the Idaho EMS Bureau reporting system as well as the IGEMS continuing education tracking system.	Saturday	Prerequisite: None Dress warm for the outside portion of this class.
Extrication Awareness and Operations	Classroom presentations cover vehicle extrication safety considerations, scene safety systems, vehicle stabilization. Also includes hands on field presentation and practice of vehicle stabilization, extrication techniques using a wide range of basic tools through power hydraulic extrication tools.	Friday (1800) Saturday And Sunday 20 Hours	Prerequisite: None Required Equipment: Full protective clothing including; boots, leather gloves, hardhat, and eye protection.
Fire Investigation for First Responders (2017 Edition)	Students will gain a consistent knowledge and skill base for the structure fire origin and cause determination along with collection and preservation of evidence.	Friday (1800) Saturday and Sunday 20 Hours	Prerequisite: None Required Equipment: PPE and Safety Glasses (No SCBA)
Fire Apparatus and Pump Maintenance	The students will gain an understanding of basic pump theory and will learn to recognize and understand the principles of accessories such as primers, ball valves, etc. They will also learn how to perform a running check of the truck/fire pump and be able to determine if there are any operating deficiencies needing attention and/or repairs	Saturday and Sunday 16 Hours	Prerequisite: None Required Equipment: Coveralls and Safety Glasses

EMS – Air St. Luke’s	Air St. Luke’s will be teaching content on how to provide the best care for your patient, while still taking the best care of yourself, the EMS Provider. 16 CEU’s will be earned.	Saturday and Sunday 16 Hours	Prerequisite: Licensed Emergency Medical Provider
Advanced Extrication	The students will learn how to perform extrication of vehicles in extreme situations.	Saturday and Sunday 16 Hours	Prerequisite: Awareness and Operations Extrication Required Required Equipment: Full protective clothing including; boots, leather gloves, hardhat, and eye protection.
Rope Rescue By CNC	Rope rescue is a subset of technical rescue that involves the use of ropes, anchors and belaying devices, friction rappel devices, various devices to utilize mechanical advantage for hauling systems, and other specialized equipment to reach victims and safely recover them.	Friday (1800) Saturday and Sunday 20 Hours	Prerequisite: None Required Equipment: Gloves, hardhat, eye protection, boots and coveralls.
International Fire Code Enforcement – 2015 Edition	Analysis of the intent of fire codes and how to apply them in individual fire districts. How to use good judgment and discretion considering the district’s capabilities, apparatus, terrain and access roads to apply to the code fairly and equally.	Friday (1800) Saturday and Sunday 20 Hours	Prerequisite: None
BLM – Firefighter II	S-130, S-190 – Identify factors effecting fire behavior, determine how fuel size matters, how fuels and wind effect fire spread	Saturday and Sunday 16 Hours	Prerequisite: None
BLM – Firefighter I Advanced	Identify hazards, evaluate safe routes and safe zones, the size of fire, location of head, weather conditions, fuel groups, time of day and topography are some of the items that will be covered in this two day course.	Saturday and Sunday 16 Hours	Prerequisite: S130, S190 or Wildland Firefighter II
NFA – Incident Command System for Structural Collapse Incidents (W0322)	Provides fire officers with an understanding of command operations at structural collapse incidents.	Saturday and Sunday 16 Hours	Prerequisite: None
NFA – Shaping the Future	This course covers the challenges affecting the FD such as; budget cuts, staffing challenges, outdated equipment, etc. Policy management strategies which can be applied to career and volunteer agencies. Confident decisions that make sense.	Saturday and Sunday 16 Hours	Prerequisite: None
Tactics for Idaho Firefighters	Skills and tactics for structural firefighting covering water supply, building construction, fire flows, water applications and firefighting for smaller departments.	Saturday and Sunday 16 Hours	Prerequisite: None
